

## Journal articles and contributions to edited collections

Button, C., Mias-Mamonong, M., Bernhard, B., and Rigg, J. (2013 [in press]) "Vulnerability and resilience to climate change in Sorsogon City, the Philippines: Learning from an ordinary city?", *Local Environment*

Fu, G., Dawson, R. J., Khoury, M. and Bullock, S. (in review) Cascading Failure in Networks of Networks: Impact of Redundancy and Directionality, *The European Physical Journal Part B*.

Fussey, P. and South, N. (2012) "Heading toward a new criminogenic climate: climate change, political economy and environmental security", in R. White (ed.) *Climate Change, Crime and Criminology*, Springer

Gregson-Green, G., Dainty, A., and Bosher, L. (2012) Understanding the impacts of multiple stakeholders on the future security of main English railway stations, *Institute of Engineering Technology special publication*

Khoury, M., Bullock, S., Fu, G. and Dawson, R. J., (in review) Improving the resilience of symbiotic interdependent networks via permutable nodes, *IEEE Trans. Systems, Man, and Cybernetics Part B*.

Rigg, J. and Salamanca, A. (2013, in press) "Adaptation to climate change in Southeast Asia: Developing a relational approach", in: Philip Hirsch (edit) *Routledge Handbook of the Environment in Southeast Asia*, London: Routledge.

Sage, D., Dainty, A, and Fussey, P. "Resilient to what, where, and for whom? On the Scalar Politics of Resiliency in UK Critical Infrastructure Resilience", in revision for *Environment and Planning D*

Sage, D., Dainty, A., Fussey, P., Sircar, I., and Goodier, C. "Understanding and Enhancing Future Infrastructure Resiliency: A Socio-Ecological Approach," in revision for *Disasters*

Sicar, I., Sage, D., Goodier, C., Fussey, P., and Dainty, A. (2013) Constructing Resilient Futures: Integrating UK multi-stakeholder transport and energy resilience for 2050, *Futures* Vol. 49(1): 49-63

## Conference papers and proceedings

Fu, G., Khoury, M., Alderson, D., Dawson, R., Bullock, S., and Barr, S. (2012) Vulnerability Analysis of Large Scale Interdependent Infrastructure Systems, NetONets2012 (Symposium of Networks Of Networks: Systemic Risk and Infrastructural Interdependencies), Evanston, IL, USA, June.

Fu, G., Khoury, M., Dawson, R., Bullock, S. (2012) Vulnerability Analysis of Interdependent Infrastructure Systems, in proceeding of ECCS20112 (European Conference on Complex Systems), pp18, Brussels, Belgium, September.

Fussey, P. (2011) 'Eastern Promise? Regeneration, Resilience and Control in East London', presented at the International Society of Criminology World Congress, Kobe, Japan, 9th August

Pearce, J. (2013) Human factors in critical national infrastructure resilience. Counter Terror Expo, Olympia London, 24-25 April 2013

Pearce, J. and Rogers, B. (2012) The role of human factors in enhancing current and future resilience of critical national infrastructure. SRA Annual Meeting, San Francisco, California, 9-12 December 2012.

Pearce, J., Krieger, K. and Rogers, B. (2012) Towards a resilient future: the role of energy and transport managers in enhancing infrastructure resilience. Themes in Emergency Planning, Response and Recovery (EM12) conference, Nottingham Conference Centre, 13 Nov 2012.
